

# IRISH TROOPS BATTLE IN DUBLIN

## HUGE VOTE IS FORECAST WITH FINE WEATHER

Practically No Rain Is Reported in State on Election Day

**VOTERS FLOCK TO POLLS**

Heavy Vote Is Cast Early—Democratic Vote Is Big Puzzle

A tense air of excitement held North Dakota in its grip today as men and women went to the polls to cast their ballots in a primary election of unusual consequence. The attitude of voters in this election will show a trend of feeling on several important questions and the vote may alter the course of politics and governmental affairs in the state by bringing new issues to the forefront, either through a victory for certain candidates or through a "protest" vote.

The weather bureau's report covering 24 hours ending at 7 a. m. today, from 21 stations in North Dakota, shows rain only at Dickinson, where a scant two-hundredths of an inch fell. The prediction today was partly cloudy tonight and Thursday. No rain had been reported any place in the state early today.

With perfect election weather and with a senatorial state and local fights to bring out the voters a full vote was expected to be cast.

Women are participating in a primary election for the first time. Two years ago, on June 30, 1920, they could not vote. In that primary Lynn J. Frazier got 59,855; William Longley, 58,941. In the recall election of last October 28, R. A. Nestor got 111,484 votes and Lynn J. Frazier got 107,332.

**Dem Vote a Puzzle.**

One of the puzzles of this election is the Democratic vote. In the primary of 1920 H. H. Perry, Democratic candidate for senator, got 8,338 votes and J. F. T. O'Connor, Democratic candidate for governor, got 7,920 votes. Both were unopposed.

Since women did not vote then a normal comparison would be about 16,000 Democratic votes. Reports of a greatly increased Democratic registration, however, indicates that more than 30,000 Democratic voters will be cast in this election. Whether this will take thousands of votes from Nestor or whether the Democrats are drawing from the league as well as the I. V. A. is a question as to the key to the result of the election today.

Because of the length of the ballot it is doubtful if complete returns can be established for two or three days. The organization gathering returns, composed of the Bismarck Tribune, Grand Forks Herald, Minot Daily News, Mandan Pioneer and Fargo Forum will maintain a special leased wire circuit to gather returns. During the election the Tribune will have two telephone operators in its office—one taking the regular leased wire service of the Associated Press and the other on the special election wire.

**Will Issue Extra.**

The Tribune will issue an election extra tomorrow morning giving the very latest information on the election.

Great interest is manifested in eastern cities in the outcome of the senatorial race. Senator McCumber is looked upon as one of the big men in the United States senate and his race is attracting great attention.

Mrs. L. Moller, 17 W. Rosser, was the first citizen to cast her electoral vote in the Second Ward today. Mrs. Moller said that she hoped that her vote carried a charm that would result in victory for her candidates.

The polls, which opened at 9 a. m. will not close until 9 p. m., and returns are not expected to be decisive until tomorrow. First reports invariably come from the Independent territory in the eastern part of the state, while league strongholds in the western State country are almost last to come in.

Senator McCumber has declared publicly for the re-nomination of Governor R. A. Nestor, Independent, who was chosen in the recall election last fall when Governor Lynn J. Frazier and two other league-endorsed state officials were deposed. This was declared to have added strength to McCumber although he was not endorsed by the Independent Republican state convention.

One of the important factors in the league campaign, in the view of its leaders, has been the work of A. C. Townley, founder and first president of the league, who has gone from town to town quietly lining up the league and attempting to re-establish their precinct organization that was so effective in many elections.

**NORMAL VOTE EXPECTED**

Grand Forks, N. D., June 28.—Early indications here today were that a vote fairly up to the normal would be cast in the city precincts in the primary election.

**HEAVY VOTE INDICATED**

Fargo, N. D., June 28.—Reports early this afternoon on today's state election (Continued on page 3)

## RAILROAD MANAGERS INDICATE NO PEACE OFFERS WILL BE MADE TO HALT THREATENED SHOPMEN'S STRIKE

Ultimatum Issued by B. M. Jewell Declares Strike Is Certain Unless the Railroads Decide Not to Cut Wages in Accordance with Board Decision

## CANVASSING THE VOTE

**SAYS STRIKE IS INEVITABLE.**

Minneapolis, June 28.—R. H. Henning, president of the Federated Shops Crafts of 21 north-west railroads who returned from Chicago today where he helped count strike ballots of shop men, said that a strike was inevitable July 1, unless the railroads agree to the shopmen's demands.

Mr. Henning said the vote was overwhelmingly in favor of a strike.

(By the Associated Press)

Chicago, June 28.—Railroad managers indicated no peace overtures to the 400,000 shopmen whose leaders declared in an ultimatum last night that a strike is certain to result from failure of the roads to ignore wage decisions of the railroad labor board and to stay the shopmen's \$60,000,000 wage cut July 1.

The ultimatum sent by B. M. Jewell, head of the railway employees department of the American Federation of Labor to D. Dewitt Cuyler, chairman of the association of railway executives, was met with silence, in rail circles here.

There was little indication today that the railroads would seriously consider Jewell's demands to hold back the wage cut and restore abolished rules governing working conditions.

Rail union officials continued their conferences today on plans for the threatened walkout next month as they hastened towards completion of the canvass of the strike vote.

Maintenance of way employees, clerks, signal men and other classes whose wages were slashed in recent orders, would, in following the shopmen out on a strike, take more than a million employees out of the railway service. In spite of this rail officials have asserted the roads can continue with train service employees and telegraphers remaining on the job. None of the big four brotherhoods are affected by the wage reductions due July 1 and there is little likelihood of the trainmen joining a walkout.

## TO FORECLOSE PAN ADDITION

(By the Associated Press)

St. Cloud, Minn., June 28.—Two hundred bondsmen of the G. S. Pandolfo property met in this city yesterday and expressed sentiment which will result in an early foreclosure of \$350,000 bonds held against Pan Addition of fifty homes and a portion of the Pandolfo Manufacturing Company, according to James J. Quigley, attorney for the bondsmen. Pandolfo's pleas for a continuance of time were unheeded.

## WOULD REVOKE 132 LICENSES

(By the Associated Press)

Minneapolis, June 28.—S. B. Qvale, federal prohibition director, has requested Arthur E. Nestor of St. Paul to revoke the licenses of 132 drink places where federal operators have discovered violations of the prohibition amendment.

## Election Returns To Be Displayed At Tribune Corner

Election returns will be given by The Bismarck Tribune tonight as soon as they are available. A screen will be installed and the figures as promptly as they are received will be given to the people.

Patrons of The Tribune are requested not to telephone this office election night as the wires will be busy receiving election returns. Come to The Tribune corner that evening after 9 p. m.

The Tribune in cooperation with other state dailies will gather the returns and experts will be busy compiling the results from all sections of the state. In case of a close election it will be hard to determine the first evening, but enough doubtless will be compiled so that a reasonable forecast can be made.

Everyone is welcome to the public returns.

Tonight at The Tribune corner at 9 p. m. is the time. It may be 9:30 before the small precincts start reporting.

## 105 STRIKING MINERS HELD UNDER ARREST

Some Are Injured Later When Train With Them Is Wrecked

## DOCTORS ARE CALLED

Hurry to Scene Near Elkins, West Virginia, After Accident

(By the Associated Press)

Elkins, W. Va., June 28.—One hundred and five striking miners and their sympathizers were arrested at Thomas, West Virginia, today when they tried to prevent working miners from entering the pits. Sheriff J. B. Clouse and ten deputies made the arrests and took the prisoners on a special train to Parsons, West Virginia, where they will be given hearings later.

Many of the prisoners were injured a short time after the special left Thomas when a rear coach of the train jumped the track at Limrock on Black Water grade. Practically all the prisoners were in the coach which turned over. Doctors and nurses were hurried to the scene from Elkins, Parsons and other points.

One man was killed, six others badly hurt and many more or less seriously injured in the wreck, it was learned.

## ASSAULT KILLINGS.

Washington, June 28.—Charging that the people of Williamson county, Illinois, apparently had given their approval to the killing of non-union miners at Herrin, Senator Myers, Democrat, Montana, declared today in the senate that there was an instance of one entire county "one hundred per cent disloyal to the United States and its constitution."

## EX-CONVICT IS CAPTURED

Man Believed to be John Francis Glynn in Gun Battle

Chicago, June 28.—A man believed to be John Francis Glynn, 41 years old, paroled from the Minnesota state penitentiary and who while in prison wrote poems and magazine articles which gained considerable commendation, was captured early today after a revolver battle with the police.

Glynn, who was said to have served 21 years in prison had been pointed to by sociologists as a worthy example of a reformed criminal, had appeared in a motion picture and personally had toured the country with the film lecturing at his showing.

Early this morning Mrs. Marie Caferty, living on the west side was aroused by noises of a man in her room. She was frightened into silence when the intruder pointed a revolver at her. But the burglar attempted to attack her she told the police and her screams aroused her 12 children, the eldest of whom, John, 21 years old, chased the burglar from the house.

Policemen took up the pursuit and the fugitive exchanged several shots with two police sergeants before he was captured.

When taken to the Warren avenue police station the prisoner refused to talk. Newspaper clippings which he police say satisfied them that he was Glynn were found in his possession.

## DEMS SPLIT OVER TARIFF

Washington, June 28.—The first real split among Democrats and the first solid vote of Republicans on the tariff came today with the approval by the senate 48 to 15, of the committee rates of 1-1-2 cents a pound on live cattle weighing less than 1,050 pounds, and 2 cents on each cattle weighing more than that amount.

## Violators of Volstead Act Are Sentenced

Milwaukee, Wis., June 28.—The E. K. Leinert Brewing Company, Racine, was fined \$21,000, another defendant was fined \$12,000 and 12 others, mostly violators of the Volstead act, were sentenced to prison by Federal Judge F. A. Geiger.

**NINE KILLED IN EXPLOSION.**

Knoxville, Tenn., June 28.—Nine men were blown to atoms today when a dynamite explosion occurred at a quarry.

## HARDING ASKS OPERATORS TO TALK STRIKE

Announcement Made of First Step of President to End It

## OTHER DETAILS SECRET

Moves of Administration Were Clouded in Secrecy This Morning

(By the Associated Press)

Washington, June 28.—President Harding has decided to summon to Washington Saturday a group of representative coal operators from all parts of the United States to discuss with representatives of the miners' union the possibility of a conference to fix wage scales that would settle the bituminous coal strike.

The coming conference which it is understood will assemble at ten o'clock Saturday, will discuss solely what steps may be taken to get the wage negotiations on foot. To date the miners' union has demanded a national conference while operators in general refusing to enter such a gathering, have countered with proposals to meet in district conferences—separate district wage fixing.

## FEELING OF OPTIMISM

Wilkesbarre, Pa., June 28.—A feeling of optimism for the first time since the suspension of operations on April 1, was general today in the hard coal regions of Pennsylvania. Hopeful news of the conference between John L. Lewis, president of the United Mine Workers and President Harding, which resulted in the adjournment of the anthracite general scale committee and abandonment of the plans for immediately converting the suspension into a strike, led the miners to believe they would be back in the mines by the middle of July.

## Receive Telegram

The contents of the telegram from Mr. Lewis telling of his conference with President Harding was not made public but union leaders expressed elation over its tone. In the minds of the mine workers any plans President Harding may suggest means intervention and they believe that regardless of the immediate outcome it will bring about a speedy re-opening of the collieries.

Thomas Kennedy, president of the central coal committee said immediate developments in both the bituminous and anthracite industries may be looked for as a result of Mr. Lewis' conference with the president.

Steps for preparedness in the event of a strike, however, will not be abandoned by the miners officials.

## EXPLOSION KILLS EIGHT

Knoxville, Tenn., June 28.—Eight men were killed and ten injured, several of them seriously in an explosion early yesterday afternoon at the plant of the Holston Quarry company at Straw Plains, thirteen miles east of here.

## THE WEATHER

For twenty-four hours ending at noon today:

Temperature at 7 a. m. 58  
Temperature at noon 75  
Highest yesterday 72  
Lowest yesterday 54  
Lowest last night 53  
Precipitation 0  
Highest wind velocity 12

**Weather Forecasts**

For Bismarck and vicinity: Partly cloudy tonight and Thursday.

For North Dakota: Partly cloudy tonight and Thursday, somewhat cooler Northeast portion tonight.

**General Weather Conditions**

Rain has fallen from South Dakota and Iowa southward to Oklahoma. Practically no rain has fallen in Minnesota and North Dakota, or from the Rockies westward. Temperatures have risen in South Dakota but elsewhere changes have been unimportant.

**WOULD PROBE EXPLOSION.**

Washington, June 28.—Investigation of the operation of the New York cotton exchange and transactions thereon was proposed by a resolution introduced by Representative Vinson, Democrat.

## Mine War Victim

C. K. McDowell, superintendent of the Southern Illinois Coal Company's mine near Herrin, Ill., was the first of those beaten and shot to death in the riots that followed importation of strikebreakers.

## 40 AMERICANS' FATE IS HELD IN BALANCE

Officials Anxiously Await Word from Mexico

(By the Associated Press)

Mexico City, June 28.—A. Bruce Bielaski, kidnapped Sunday was released this morning.

A message stating that Mr. Bielaski had been released was received at 11:15 o'clock. It gave no details except to state that the released man would be in Mexico City tonight.

Washington, June 28.—Officials were today anxiously awaiting reports as to the fate of the 40 American employees of the Cortez Oil Company at Tampico, Mexico, who the state department yesterday was informed had been seized by bandits and together with a quarter of a million dollars worth of destructible property held for ransom of 15,000 pesos. The time limit of 48 hours within which payment of the ransom was demanded ended yesterday morning. The state department's information on the bandit action early today was still confined to the brief report from the consul there that the rebel General Gorazave, with 240 well armed men held the property and the 40 Americans. Having immediately instructed both the embassy and the consul to press for immediate action for the protection of American lives and punishment of the perpetrators of the outrage there appeared today to be no disposition here to move in any other than a diplomatic way until the Mexican government had been proved unequal to such protection.

It was stated at the white house that relations between the United States and Mexico were not likely to be affected in any way by the bandit outbreak and the recent kidnapping for ransom of Bruce Bielaski. The department today still was awaiting word of the progress of the efforts of the Mexican authorities to obtain Mr. Bielaski's release.

## POSTPONE REDUCTION

(By the Associated Press)

Washington, June 28.—The house postoffice committee voted to postpone consideration of the Kelly bill for reduction of the second class postal rates until the December session.

## SUSPECTED MEN ARE RELEASED

(By the Associated Press)

Devils Lake, N. D., June 28.—Hugh Wenzel, Devils Lake, and "Red" McCarthy, formerly of this city, who were arrested in Thief River Falls, Minnesota, on suspicion of having been implicated in the murder of Fred Barker in McKean City, North Dakota, and the robbery of the Lamb and Oak Bank of that place last week have been released.

Wenzel and McCarthy are said that they were in Thief River Falls on the night of the robbery of the bank.

## PROVISIONAL GOVERNMENT IN DRASTIC STEP ON INSURGENTS HOLDING 4-COURTS BUILDING

Many Casualties Are Reported as the Fighting Progresses While City's Business Goes on as Usual—Report Regulars Are Winning

Dublin, June 28.—(6:30 p. m.)—(By the Associated Press)—Machine gun and artillery fire was still in progress at this hour. The provisional government has imposed a censorship upon telegrams.

Dublin, June 28.—(By the Associated Press)—Several buildings near the Four Courts were commandeered by the irregulars.

Dublin, June 28.—(By the Associated Press)—An attack begun at dawn today by Free State troops on the Irish Republican army irregulars barricaded in the Four Courts at Dublin was still in progress at one o'clock this afternoon. Under a heavy fire from rifles and machine guns and of high explosive shells from small caliber artillery, the irregular troops under command of Rory O'Connor were reported to have been driven to the rear part of the Four Courts building and the belief that they could not hold out much longer was expressed in official quarters.

Fowler's Hall in Parnell Square, held by the insurgents, also was besieged and after fire had broken out there shortly after noon, the irregulars evacuated it and moved to a hotel in the vicinity where they began throwing up defenses.

Unofficial estimates were that 15 men had been killed and numbers of combatants wounded up to the early afternoon and it was rumored that Commandant O'Connor of the irregulars was among the wounded.

## WISCONSIN DEMS NAME MRS. HOOPER

As Party Nominee for U. S. Senate She Will Lead Democrats Nov. 7

## FIGHT ON PROHIBITION

Plank Objected to by the Drys Was Accepted by 298 to 50 Vote

(By the Associated Press)

Milwaukee, Wis., June 28.—Mrs. Ben C. Hooper of Oshkosh, president of the Wisconsin League of Women Voters as the Democratic nominee for the United States senate will lead the Democrats of Wisconsin to the state elections November 7, the first woman representative on a party ticket in this state.

The Democratic party convention last night unanimously endorsed Mrs. Hooper as their senatorial candidate, and party leaders gave assurance of their support to her candidacy so that nomination at the September primaries is accepted. She last night expressed her willingness to make the campaign against the Republican candidates.

This selection of the convention and its endorsement of two candidates for governor, Mayor A. A. Bentley of LaCrosse, representing the wets, and Carl Mathe of Wausau, representing the drys, prevented a defection within the party that was threatened when a plank objected to by the drys was accepted by a vote of 298 to 50.

## Had Hot Fight.

Some dry delegates at the convention for two hours hotly contested the declaration of the resolutions committee which said that the party urged strict enforcement of the Eighteenth Amendment and proposed that "in order that the people of the state of Wisconsin may express their sentiment on change of the law we favor the submission of such changes to all the people of Wisconsin by the legislature at a referendum to be held at the spring election in 1923."

Democrats on the resolutions committee had agreed to this statement of principles, after five hours of discussion on a proposal by Judge Martin L. Luck for a referendum of the prohibition question to the voters through constitutional conventions. The drys on the committee accepted and supported the proposal on the floor.

## FARMER SHOT BY HOLDUP MEN

(By the Associated Press)

East Grand Forks, Minn., June 28.—Charles Burholz, a farmer living 20 miles northeast of East Grand Forks in a hospital at Warren, Minn., recovering from a bullet wound sustained early Sunday morning when he was shot in the back by two holdup artists near Warren, Minn.

The shooting occurred as Burholz was driving to his farm from Warren. Two shots were fired at him as he rode past a small store at the place where the holdup took place.

The last census showed that there were 4,900 Indians living in Oregon at that time.

# BOYS BACK FROM ISABEL

## Another Fine Time Reported On Camping Trip

The Bismarck Boys returned from Camp yesterday afternoon after spending a delightful six days at Lake Isabel.

No camper is experienced who has not been through a real down pour of rain coupled with a wind which threatens to strip one of his clothes. The weather man did his best in this regard last week for the boys.

A novel and delightful experience to many of the boys was swimming in rough water, and in proportion to size the old Pacific never rolled higher than did Isabel last Friday. The camp honors were as follows:

The tent inspection honors went to Dick Penwarden's Beavers.

The late ball mellow to Paul Parsons' Cottonbolls.

Cooking and serving honors was equally deserving to all three groups.

To Bill Lenhart goes the individual honor for the best list of birds seen at camp and for the star test. Bill will receive a copy of Chapman's bird book "What Bird is That?"

Unfortunately the water mellons which were the prizes in base ball, tent inspection etc., arrived in Dawson on the hottest day of the year and on this same day were assembled in Dawson all the old timers and the young timers from miles around. The good natured fruit vender rather than have his store torn down carved these juicy mellons in exchange for butter, eggs and other farm products.

A water melon picnic will be held some day but we are not going to say when or where so go right on with your work, folks.

St. Mary's boys will meet today to complete arrangements for camp.

**FIRELIGHTER.**

## NEWS BRIEFS

(The Associated Press.)

Washington, June 27—The nomination of Vernon Van Fleet of Indiana to be a member of the federal trade commission was confirmed by the senate.

Washington, June 27—Chairman Johnson of the house immigration committee introduced a bill which would admit to permanent residence only persons eligible to citizenship, automatically barring Japanese, Chinese and Mongolians.

Jacksonville, Fla., June 27—Lieutenant B. J. Tocher and Sergeant

## TO THE VOTERS

My attention has been called to an article in yesterday's Tribune warning voters not to vote for me, that statement purporting to be issued by the Burleigh County Joint Campaign Committee, but it omitting signing the alias B. E. Jones, representing his daily bread.

It is not surprising that a man like Mr. Jones is not capable of having a broader view of this matter, he always being dominated by a master so his vision is dimmed to the extent that it is incomprehensible to him how any one can publicly exist without a superior guiding hand. In this case by order of his master he has resorted to the familiar trick of making it appear that the notice was given by the Burleigh County Joint Campaign Committee while it appears in truth and in fact, to have been given by B. E. Jones, for an undisclosed principal, although said principal is well known to all voters.

To the voters, I hereby deny the accusations made in such statement or warning, and ask in behalf of my candidacy that you give this matter your careful study and attention. If elected I will not allow any political affiliations to interfere with such work bestowed upon me, as I have no affiliations. If the opposition to my election has no other reason for you not voting for me, I can hereby conscientiously solicit your vote.

Signed

O. R. VOLD

### \$200 INVESTED IN OIL COMPANY NETS DALLAS MAN \$50,000 IN A YEAR

(From Texas Oil Ledger)

(Editor's Note: How would you like to make \$50,000 from an investment of \$200? Here is the story of a man, James Hazlitt, 3646 Noble Street, Dallas, Texas, who actually made such a profit. He tells how to make that much in a very interesting way. In editing this article the name of the company with which Mr. Hazlitt made this huge profit was omitted.)

BY JAMES HAZLITT

You want to know how it makes one feel to invest \$200 and have \$50,000 paid back to you within the year?

Well, I guess I can tell you, because I made just such a profit in the good old days of Burkburnett.

I do no claim to be a good judge of oil investments. I can't go out and look at a piece of property and tell whether it will produce oil or not.

I made my investment with fear and trembling. I wasn't an investor. I had always made my money by working for it and saving what I earned. But I determined that if I was ever to get anywhere, to really accumulate anything worth while, I must invest a small amount on the chance that it would win me a fortune. And, as it turned out, that is just exactly what happened.

So I put up the \$200, along with a lot of other investors, and then sat back and waited for results. The results were not long in coming.

To make a long story short, I received dividends totaling \$50,000 within the short space of about six months. So rapidly did these dividends come that I hardly realized what was happening until I had a cool \$50,000 in the bank in hard cash. The money had accumulated so fast that I honestly didn't appreciate how much I was getting from my little \$200 investment until the bank told me one day.

I have a nice home, drive a good car, go anywhere I like any time I want to. In short, that \$200 investment has made me absolutely independent and I'll tell the world that's a fine way to be.

This is only one of the many thousands, who made ten times \$50,000 on small oil investments. This is going to happen in the Dakotas.

If we bring a gusher like we are looking for every \$200.00 will earn \$100,000.00.

Burkburnett where the man made his fortune was a Pioneer Oil field. We have a wonderful chance of doing as well as Burkburnett. Also we have 12,000 acres and only \$100,000 capitalization. Get order in before stock advances in price. Now \$1.00 Par Value per share.

### THE DAKOTA OIL CO. Bismarck, N. D.

# BONUS CLAIMS CASE IN COURT

## Legality of Details Will Be Threshed Out

After a series of conferences here between officials, attorneys and a representative of financial houses who have signed an agreement to purchase all unpaid soldiers bonus certificates, it was decided to take the entire matter into the supreme court for clarification of legal points involved. After this was decided to take this new step in the working out of the bonus claims' sale the supreme court discussed the matter and agreed to hear the case on Thursday afternoon.

The matter will be brought before the court in the suit of a Mandan former service man against the proposed agreement. The issue will be presented to the court and it is anticipated that an early decision will be reached. According to the representative of the financial houses this step was decided upon so as to remove any difficulty in the sale of the securities to be offered in the east.

Points to be determined in the suit include the method of assignment of claims and priority of those included in the agreement, excepting claims which have already been assigned. Those officials engaged in working out details of the sale of approximately \$5,500,000 certificates are confident that legal questions be answered to the satisfaction of all.

# ONE DEAD, ONE INJURED WHEN CAR TURNS OVER

(By the Associated Press)  
Winona, Minn., June 28.—Sam Johnson, 47, of Rochester, is dead, and William Donahue, 40, also of Rochester, is suffering from serious injuries as a result of an automobile accident last evening west of St. Charles.

Both men were pinned beneath their car when it struck some loose gravel on state highway No. 7 and turned completely over. Johnson, who was driving, was crushed beneath the steering wheel. His neck was broken. He died several hours later at a St. Charles hotel. Donahue was severely cut on his left arm and on his face. He also sustained internal injuries. Physicians say he will live, but he may lose his arm. Neither man is married.

# CORROBORATES TESTIMONY OF ROMAN, CONVICT

Los Angeles, June 28.—More testimony designed to corroborate that of Paul Roman, convict that he had exchanged letters with Mrs. Madalyn Obenchain on the subject of a story he said she wanted him to tell concerning the slaying of J. Bultop Kennedy, was promised by the state today at the resumption of Mrs. Obenchain's trial for the murder of the young broker.

One witness already has given testimony corroborating Roman. She is Miss Lois Wright, who described herself as a friend of Mrs. Obenchain.

# Provisional Government in Drastic Step on Insurgents

(Continued from page 1.)  
O'Connor's stronghold was being attacked.

The garrison is believed to be well equipped with rifles and ammunition while machine guns are posted on the roof. The number of the defenders is unknown but it is said many have deserted since the early days of the occupation. Nevertheless it is believed some hundreds are still within, and well provisioned against a siege.

## 700 on Government Side

The determination of the provisional government to recapture the Four Courts is ascribed entirely to the insurgent's act in seizing Lieutenant General O'Connell, assistant chief of staff of the regular forces and not to Colonial Secretary Churchill's warning in the house of commons.

About 700 men were engaged on the government side.

Newspapermen were not allowed to approach the zone of operations, the surrounding streets being cordoned with troops, consequently authentic details are difficult to obtain.

## BATTLE IS RAGING

Dublin, June 28.—A battle has been raging since dawn between the regular Irish Republican Army troops and irregulars under Rory O'Connor, for the possession of the Four Courts, recently seized by the latter. It is believed the casualties will be large. Armored cars, trench mortars and machine guns are being used.

At 8:30 o'clock the battle was still continuing. The copper dome on the Four Courts had been blown in, ambulances were dashing about in all directions and the scene was one of indescribable confusion.

The garrisons of the Four Courts and the Foster memorial were replying vigorously to the attackers' fire and refusing all demands to surrender.

## IRISH TROOPS RETREATING

London, June 28.—A Dublin dispatch to the Evening Standard says that after some hours of fighting many of the insurgent Irish troops under Rory O'Connor are retreating.

## RUMORED O'CONNOR INJURED

Dublin, June 28.—The premises in North Great George's Street occupied by the Communist party were fortified after the government attack on the Four Courts had begun and government troops were fired upon from the newly fortified building.

A rumor that Rory O'Connor, the Republican insurgent commandant,

# SHOALS WORK WILL GO ON

## Senate Concurs in House Amendment to Army Bill

(By the Associated Press)  
Washington, June 28.—The senate has concurred in the house amendment to the army bill authorizing an appropriation of \$7,500,000 for new work on the Wilson Dam at Muscle Shoals, Alabama, effective next October 1.

Chairman Norris of the agriculture committee, led a fight to refuse to accept the house amendment but was defeated 32 to 28. He wanted the senate to insist on its amendment under which the fund would have become available immediately after the president signed the army bill.

## REPORT GATES BLOWN DOWN

(By the Associated Press)  
Belfast, June 28.—Unconfirmed reports received here from Dublin this afternoon said the gates and the main entrance of the Four Courts had been blown down and some of the walls almost levelled.

## WILL FIGHT TO END

(By the Associated Press)  
Dublin, June 28.—"The boys are glorious and will fight for the republic till the end," said a communique issued this afternoon by Rory O'Connor, commandant of the insurgents under attack in the Four Courts. He said the only casualties sustained so far by the insurgents were three, slightly wounded.

# Huge Vote Is Forecast With Fine Weather

(Continued on page 2)  
wide primary in North Dakota indicated a heavier vote was being cast than leaders had anticipated in view of the comparatively little surface interest shown.

Friends of the candidacy of Senator Porter J. McCumber for re-nomination to the Republican ticket have urged among other things, that his position as chairman of the senate finance committee is an important reason why he should be returned to the senate.

Sensor McCumber himself has taken no active part in the campaign, so far as personal appearances are concerned, and aside from his public endorsement of the candidates of Governor R. A. Nestos and other independent Republican candidates, he has made few public moves.

# SENATOR NOLAN INJURED IN AUTO ACCIDENT

(By the Associated Press)  
Rochester, Minn., June 28.—Senator W. A. Nolan, of Grand Meadow, was seriously injured early today when the automobile he was driving turned over four miles from here and pinned him underneath. Senator Nolan was taken to the Colonial Hospital here, where an x-ray will be taken to ascertain if his skull was fractured.

Frank Clarke, who was with the senator, escaped with slight injuries. The senator was driving to his farm near here when the accident occurred. He was trying to avoid another automobile on the road, hit some loose gravel and turned over a small embankment.

Physicians said he sustained a broken leg and other injuries, and it is probable that his skull was fractured.

## NOTICE OF FORECLOSURE OF REAL ESTATE MORTGAGE

Notice is hereby given that that certain mortgage made, executed and delivered by Ferdinand Eisele and Christiana Eisele, his wife, Mortgages to Paul C. Remington, Mortgagee, which mortgage is dated the 18th day of October, 1916 and which was filed for record in the office of the Register of Deeds of Burleigh County, North Dakota on the 26th day of December, 1918 at the hour of 9:00 o'clock a. m. and recorded in Book 124 of Mortgages at page 92 will be foreclosed by a sale of the premises in said mortgage and hereinafter described at the front door of the Court House in the City of Bismarck, in the County of Burleigh and State of North Dakota on the 29th day of July, 1922, at the hour of two o'clock p. m. to satisfy the amount due on said mortgage at the day of sale.

The premises described in said mortgage and which will be sold to satisfy the same are described as follows, to-wit:

East Half of the Northwest Quarter (E1/2 NW1/4) and Lots One (1) and Two (2); otherwise described as the Fractional Northwest Quarter of Section seven (7) in Township One Hundred Forty-four (144) North of Range Seventy-seven (77), West of the 5th Principal Meridian, containing 142.76 acres more or less, according to the U. S. Government Survey, in Burleigh County, North Dakota.

There will be due on said mortgage at the date of sale the sum of \$14.92 on the principal mortgage and the sum of \$897.22 paid on prior liens and the sum of \$154.82 taxes paid, making a total due of \$1072.96, together with the costs and disbursements of this foreclosure.

Dated this 21st day of June, 1922.

PAUL C. REMINGTON, Mortgagee.

SCOTT CAMERON, Attorney for Mortgagee, Bismarck, North Dakota.

## Senate Concurs in House Amendment to Army Bill

(By the Associated Press)  
Washington, June 28.—The senate has concurred in the house amendment to the army bill authorizing an appropriation of \$7,500,000 for new work on the Wilson Dam at Muscle Shoals, Alabama, effective next October 1.

Chairman Norris of the agriculture committee, led a fight to refuse to accept the house amendment but was defeated 32 to 28. He wanted the senate to insist on its amendment under which the fund would have become available immediately after the president signed the army bill.

## TARIFF LAID ASIDE

(By the Associated Press)  
Washington, June 28.—The army bill containing the \$7,500,000 authorization for renewed construction of the Wilson Dam at Muscle Shoals, Alabama, was called up in the senate by Chairman Wadsworth of the military committee. Senator McCumber, Republican, North Dakota, agreeing to lay aside temporarily the tariff bill in order that the senate might consider the appropriation measure, which is in its final legislative stage.

# MANIFESTO IS ISSUED

(By the Associated Press)  
Dublin, June 28.—The Irish provisional government issued a manifesto last evening denouncing outrages against peace and security in Ireland, declaring the boycott of Belfast had no legal existence to maintain law and order. The co-operation of citizens in this was invited.

# PARACHUTE JUMPER DIDN'T STATE FACTS

(By the Associated Press)  
Wichita, Kan., June 28.—The reported miraculous escape near here recently of three persons by leaping in parachutes from an airplane when it went into a tail spin at an elevation of 3,000 feet, and crashed to earth, was a hoax, James J. Higgins, engineer of the United States army air announced here yesterday.

Higgins was sent here from McCook field, Dayton, Ohio, to make an official investigation. He said that R. H. Norman, professional parachutist, when pressed for a detailed account of the exploit admitted there was no basis whatever for his tale.

# Steamer Aground Floated Again; 500 on Board

(By the Associated Press)  
Cleveland, O., June 28.—After being aground four hours on a sand bar near Kelley's Island in Lake Erie, the steamer South American, with 500 passengers aboard, was floated at daybreak this morning and started for Cleveland. The steamer went aground about midnight in a dense fog that blanketed the lake and made shore lights invisible.

# Chicago Flyer Wrecked; Two Are Injured

(By the Associated Press)  
Lincoln, Neb., June 28.—Two persons may die and many are said to be injured as a result of the wrecking of the Chicago flyer, a Rock Island train due in Lincoln from Chicago at 1:40 a. m., when the train went into the ditch 15 miles east of here at Alvo. The engineer and fireman are probably injured fatally. The wreck occurred at 1:20 a. m. Engineer W. C. McClellan of

Fairbury, Nebraska, Rock Island and Pacific railroad, received minor injuries when the train went into a ditch, piling up five coaches and the engine near Prairie Home Nebraska, early today.

The train, a limited out of Chicago, was made up of steel coaches, which probably saved the lives of many passengers. The giving away of the road bed, following heavy rains was blamed.

# GASOLINE IN 1-CENT JUMP

## Advance Is Reported at Mill City Oil Companies

Minneapolis, June 28.—Oil companies in Minneapolis announced an increase of one cent in gasoline prices, reported as general throughout states of the middle west.

The Standard Oil Company of Indiana announced an increase to 24.5 cents a gallon and the Pure Oil company to 26.7 and 29.7, with other companies following suit. In all cases the increase is one cent.

## BOOSTED IN SOUTHWEST

Kansas City, Mo., June 28.—Officials of several other oil companies following the lead of the Sinclair Oil company, given yesterday, with a one cent boost in gasoline prices here, when they announced their prices, too, would be raised at once to the new level. With the raise, the prevailing price today is 24.5 cents a gallon. Local officials said the new boost is effective throughout the middle west.

## STANDARD ADVANCES

Chicago, June 28.—The Standard Oil company of Indiana announced an increase of 1 cent per gallon on gasoline and kerosene throughout their entire territory.

## NEWS BRIEFS

(By the Associated Press)  
New York, June 28.—Julius H. Schwartz, leader of a ring of commercial swindlers was sentenced to four years in the Atlanta prison.

Washington, June 28.—A resolution authorizing the railroad labor board to rescind its decision reducing wages of railway employees was introduced in the house of representatives by Representative Burke, Republican of Pennsylvania.

Moberly, Mo., June 28.—Walter Brundage, absconding bank president, surrendered at Multon, Iowa. Bank examiners found \$400,000 in questionable paper following his disappearance.

Calexico, Cal., June 28.—Twenty-one men were killed in and near Mexicali in the last two weeks according to official reports.

Reno, Nev., June 28.—"White civilization is doomed to extinction if it does not organize properly for the prevention of war," William Gibbs McAdoo said in an address here.

St. Paul, June 28.—The state canvassing board certified the nominations made in the recent Minnesota primary election.

Minneapolis, June 28.—The board of education voted against abolition of military training in high schools.

New York, June 28.—Port officials seized 150 cases of liquor from the United States shipping board steamer.

## Cool In Comfort

The Red Star is an oil-burning stove which can be relied upon for all kinds of cooking. It matters not whether you are toasting bread, roasting fowl or baking pastry; this wonderful stove will do the job to a turn and do it with far less attention than a coal or wood stove, for the burners may be set to maintain an even low heat or regulated to produce a uniform intense heat.

## Red Star Vapor Stove

Is a marvelous advancement for homes without gas. It gives to these homes the same smokeless and odorless heat as does the city gas range. It is wickless, ashless and dirtless, because it generates its own gas from cheap kerosene, gasoline, or distillate—concentrating a double ring of heat directly beneath the cooking utensil and saving at least one-fourth of fuel bill. Operates 19 hours on a gallon of fuel.

**\$27 to \$64.**

# DEMOCRAT IN SENATE HITS MEAT TARIFF

Says it Would Increase Nation's Meat Bill Over \$379,500,000

## ARGUES ON DUTIES

(By the Associated Press.)  
Washington, June 28.—Duties on fresh meats and meat products proposed in the pending tariff bill, if effective, would increase the nation's meat bill \$379,500,000, Senator Walsh, Democrat, Massachusetts, declared yesterday in the senate.

Senator Walsh estimated the duties on beef and veal would increase their prices by \$231,000,000 a year; that mutton and lamb would advance \$31,000,000; pork \$105,000,000 and lard \$12,000,000. He said the total would be 3.77 for each man, woman and child or 18.85 for a family of five.

The speaker argued that the proposed tariff duties on agricultural products could not benefit the farmers for reasons which he outlined as follows:

"A tariff upon agricultural products except in a very limited number of instances, may not have at all the effect of raising the general level of prices to the producer.

"To whatever extent it will raise the prices to the producer it will: (a) react in higher cost of living to the people of the country and; (b) react in higher cost of the things the farmer must buy. This was illustrated during the war. As the prices of agricultural products increased, an increase of prices of things the farmer purchased closely followed and the result was little net advantage to him.

"Increased costs through tariff rates of those things laboring people must eat means increased wages and increased wages in the centers of population means that labor will be scarce and will demand correspondingly high wages on the farms.

"In these cases where the duties on agricultural products will be most effective in increasing prices, they are levied upon commodities produced in restricted sections by a small percentage of the farmers of the United States. Thus high duties are proposed on lemons, almonds, walnuts, figs and wrapper tobacco of which the great majority of farmers are consumers rather than producers.

"An examination of statistics in regard to some of these agricultural articles," Senator Walsh continued, "will prove," I believe beyond question, that the agricultural schedule will result in a very serious loss to the American people as a whole, and will injure materially the export business of the country.

"If this is true, then these tariff duties are mere paper duties and will be of no benefit to the farmer."

# BUILDING A CRADLE FOR NEW AIRSHIP

(By the Associated Press.)  
Lakehurst, N. J., June 27.—Construction of the cradle to hold the ZR-1, the next addition to the American dirigible fleet, has been started at the naval air station.

"It is expected that the keel of the airship which will be 700 feet long, 85 feet in diameter with a gas capacity of 2,700,000 feet, will be laid within a few weeks and that the dirigible will be ready for trial flights in about ten months.

The ZR-1 will have a lifting capacity of 85 tons, with 5,100 horse power liberty motors giving a cruising speed of 50 miles an hour and a maximum speed of 75 miles an hour. A cruising radius 9,000 miles without refilling the gas bags is expected.

# Waldron Gives Brome Grass Much Attention

Fargo, N. D., June 28.—After working six years to improve brome grass, L. R. Waldron, plant breeder at the State Agricultural college here has developed it to the point where he believes that a strain capable of producing a 50 per cent greater yield than ordinary kinds will be ready for distribution in about two years.

Mr. Waldron declared that one objection against the brome grass—the fact that farmers find it hard to eradicate—would be eliminated if the grass were plowed under immediately after cutting. The grass cannot survive this, he said.

Beginning with five thousand plants, Mr. Waldron has been working since 1916, sowing seed from the best plants thus produced and repeating the process.

He has produced one seed that more than doubled the yield of timothy—the plant or grass that is commonly used in North Dakota for hay at present.

# 3,000 CLAIMS ARE FILED

More than 3,000 claims of loss by hail had been received at the office of the hail department in the state house when business closed Monday night. Thus far the rush has not been as great as last year, when 2,500 claims were filed on one day, although more claims have been filed to date than were filed at this time last year.

A good many of the claims on file at the present time will not be expensive claims to adjust, according to Martin Hagan, manager, at the heavy damage from hail is not done in the first few weeks of the growing season, but in the latter days, or after the grain begins to

# Harvey's Son-in-Law Indicted

Colonel Marcellus Thompson, indicted on a charge of conspiring to ship machine guns to Irish rebels, has pleaded not guilty to the indictment at Newark, N. J. Col. Thompson, son-in-law of Col. George Harvey, U. S. ambassador to Great Britain, is shown on the right examining a new machine gun invented by his father, General John P. Thompson.

head and joint. Large damage to date is in Williams, McKenzie, Cavalier and Towner counties.

# TAKE VACATION IN SCHOOLS

More Teachers Going to School Than Ever Before

North Dakota teachers are attending summer schools as never before, according to the reports being made to the state board of administration. Two at least of the summer schools have an attendance of 1,000 and others have from 600 students up, making the total of attendance at all of the schools more than it is during the regular school year.

The attendance is not confined exclusively to teachers, but many college students are taking advantage of the schools to add to their knowledge in the terms which have been in operation for two weeks now. The teachers, largely are in attendance because of the benefits derived from the North Dakota law prescribing the minimum qualifications of teachers.

One special instructor will appear before the teachers in the different summer schools, according to Miss Minnie Nielson, state superintendent, Mrs. Elizabeth Middleton of Kansas City being in the state to instruct the teachers in the evils of the use of alcoholic liquors. Instruction in this subject is required in North Dakota schools. Mrs. Middleton is chairman of the committee having in charge the instruction of a scientific character against the use of alcohol. She will be in North Dakota three weeks, appearing at all of the summer schools.

# Advices Girls To Take Hair Home With Them

Fargo, June 28.—Don't leave your hair lying around the barber shop or hair-dressers, girls, but take it home with you. You may need it later. That is advice by Fargo hair-dressers to girls who have their hair bobbed.

The hairdressers believe that the old style is coming back some time and that is the reason they advise claiming the portions cut off. It may come in handy as a camouflage during the transition period while the short hair is growing out again, they believe.

The girls of Fargo are sticking to their bobbed hair despite rumors from some cities that it is going on, the experts here say. Only here and there a girl whose type of beauty plainly unfits her for wearing it short, is returning to the old fashion.

Having the hair bobbed is not a step to take without due, sober forethought, taking in every angle (or curve), that has a bearing on the case they advise. If there are too many angles, don't bob it, for in general plumpness plus curly hair goes well with the short style while slenderness or straight hair act the other way.

# \$100,000 Necklace Valued at \$5,000

(By the Associated Press.)  
Fargo, N. D., June 28.—A necklace valued at \$100,000, alleged smuggled into America by Mrs. Laura Kachelmacher of Fargo according to reports from Chicago was appraised by a reputable Fargo jeweler at \$5,000. Judge Samuel Nichols, assistant United States district attorney said today. The necklace was seized here in February and is still in possession of the United States marshal's here. It came from Norway, according to federal officials here.

Mrs. Kachelmacher is ill at her home here and is not under arrest, it became known this afternoon. Charles Salter, special treasury agent from Seattle, Washington, was quoted last night from Chicago as having said she was under arrest.

# MUST TAKE OUT LICENSES

St. Paul, Minn., June 28.—The state department of agriculture has taken steps to force commission merchants throughout the state to take licenses in compliance with the laws enacted by the last state legislature.

All commission merchants, known by the department to be operating

# COOL WEATHER HELD BOON TO STATE CROPS

John Haw, County Agent, Says Reports For Week Are Satisfactory

(By the Associated Press.)  
Fargo, N. D., June 28.—With cool weather prevalent during most of the week and ample moisture everywhere, crop conditions continue to be almost ideal throughout North Dakota according to reports for the week ending June 24 received today from county agents of 17 counties by John W. Haw, county agent leader today.

"Wheat will be completely headed from the 4th to the 10th of July," Mr. Haw stated, "and with normal conditions wheat harvest should begin in the state about August 5 to 10. It usually takes about thirty days to mature wheat, after the head emerges from the stalk. Wheat is beginning to head in many sections of the state.

"From reports of conditions on the winter rye crop and from a study of the winter rye here at the experiment station, we are expecting rye harvests to be general in central North Dakota about July 15."

Very few rust reports and little damage by grasshoppers and cutworms are noted. A tornado in Bottineau county last week did damage to the extent of \$300,000 however.

# GOOD "CROP OF HOUSES" GOING UP IN STATE

Fargo, June 28.—Prediction of North Dakota architects and builders of a good crop of houses in the state this year are materializing, according to Visitor H. Leeb, secretary of the North Dakota State Association of Builders' and Traders' exchanges. There is a "good conservative increase" in the building of not only houses but schools as well, he says. The last thirty days have been especially active.

The dwellings going up are for the most part in the towns and cities, he said, no great increase being noted in the building of farm houses. Residence construction has shown "the greatest increase in Fargo. Most of the houses are frame and stucco—usually of about five and six-room size and a story and a half high.

Following are a list of public buildings on which the contracts have been let recently or will be let soon:

- Sanitarium, Fargo, contracts let June 16; church, Olga, June 16; school, Sherburn, June 20; school, Glenburn, June 21; school, Judson, June 26; school, West Fargo, June 27; school, Brantford, June 20; high school, Harvey, July 5.

# LIBRARIANS GO TO CONVENTION

At the 44th annual meeting of the American Library Association at Detroit, Mich., June 26 to July 1 will be Miss Mary E. Downey and Miss Ellen Hedrick of the North Dakota Library commission.

Miss Hedrick will preside at a round table discussion of "Catalogue Problems in Smaller Libraries" on June 30. Almost every phase of library work will be discussed at one of the 50 or more meetings during the week.

An important feature of the conference this year will be a voting contest on a "Two-Foot Shelf" for a one-room country school. Every delegate will have an opportunity to express an opinion on the 24 best books for general reading for children in the country school. A similar voting contest will be held at the meeting of the National Educational Association in Boston during July.

# Not a Plesiosaurus—

—only the giant anchor on the bow of the Majestic, biggest passenger liner. But it does look like a prehistoric monster—or a pre-prohibition dream.

# Ward's Kin Go to Inquiry

# STRIKE VOTE AMONG SAILORS

Repeated Wage Cuts Bring Out Action

(By the Associated Press.)  
Buffalo, N. Y., June 28.—A strike vote is being taken by between 12,000 and 15,000 employees on Great Lake vessels, it was announced by Thomas Conway, general secretary of the Marine Firemen, Oilers, Water Tenders and Coal Passers union.

The strike resolution upon the vote which is being taken sets forth that the lake carriers association by repeated cuts has reduced wages from \$100 a month in 1921 to \$80.

"The wages, we are now receiving," says the resolution, "are not sufficient to allow us to live like other working men and we can work only seven months of the year which makes our yearly wage \$340, a sum which no reasonable person would attempt to support a family on."

The vote will be taken at Buffalo, Ashtabula, Cleveland, Detroit, Chicago and Milwaukee.

# FOUND DEAD IN FIELD

Lakefield, Minn., June 28.—L. K. Rue, 75, former Jackson county treasurer was found dead in his hayfield near here. He was believed to have

# Stiff? Sore?

A lumbago, a sore muscle or a stiff joint often is considered too lightly by the sufferer. It should be remembered that backache, rheumatic pains, stiffness, soreness, swellings and puffiness under the eyes are symptoms of kidney and bladder trouble—and these certainly should not be neglected.

# Foley Kidney Pills

help the kidneys eliminate from the system the poisonous waste and acids that cause these aches and pains. They act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to healthy, normal condition.

J. E. Simmons, 400 E. 50th St., Portland, Ore., writes: "I was troubled with backache and urinary trouble. I tried Foley Kidney Pills and will say that I highly recommend them to anyone troubled in that way, as they are excellent."

TO YOU WHO ARE LEAVING THE PUBLIC SCHOOLS  
JUST HOW ANXIOUS ARE YOU TO GET AHEAD? Your ambition says you are willing to go to any honorable extreme, but it is by your actions that the world will know what you really are. The poorest workman in the hardest, lowest-paid job probably once had ambitions just as lofty as those you now entertain. But he failed to take any steps toward realizing those ambitions. He made plans, but he always put off making the start. He waited for a fortune to fall in his lap. He isn't waiting any longer. He realizes his mistake as he faces the daily treadmill of existence. It is now too late for him to turn back.  
BISMARCK Business College  
can prepare you for and secure you a good business or banking position. What it has done for others, it can do for you. Telephone, call or write for particulars.  
G. M. Langum, Manager, Bismarck, N. D.

Peter Rabbit

## SOCIAL AND PERSONAL

## Citizens Approve Juvenile Band

A number of the business men of the city have stated that they were highly in favor of the establishment of a real live Boys' and Girls' band in Bismarck. They said that it would not only develop the musical talent of the children but would be of benefit to the entire community, since the social life of any city is aided by good music.

When asked his opinion on the value of the Boys and Girls' band of Bismarck, which W. L. Dodson recently organized, F. A. Lahr, president of the First Guaranty bank said:

"I heartily approve of a properly conducted Boys' and Girls' band in Bismarck. It will be a great benefit to the children participating and at the same time a good advertisement for the city."

Burt Finny stated:

"A Juvenile band in Bismarck fits in admirably with the Boy welfare work inaugurated a year ago and should be encouraged."

## Pupils to Appear in Joint Recital

The voice and expression pupils of Miss Clara Rudge will appear in a recital tomorrow evening at 8:15 o'clock at the high school auditorium.

An attractive program has been prepared including solos, readings and a musical farce. The public is cordially invited to attend. An offering will be taken to contribute toward the local scholarship fund.

## CIRCLE TO MEET

The Fourth Division of St. Mary's sewing circle will meet at the home of Mrs. Frank Andrist, 111 Washington Ave., Thursday afternoon at 2:30 o'clock. This will be the last meeting during the summer season. Meetings will be resumed the second week in September. Everybody is welcome.

## OFF FOR VACATION

Mr. and Mrs. J. W. Riley left this morning for southeastern Minnesota, the old home of Mrs. Riley. From there Mr. Riley will go to Boston to attend the National Educational association which meets July 2. Later he will join Mrs. Riley for the return trip.

## ACCIDENT VICTIM

Mrs. John Alsbury, who was injured Monday night when in a runaway near Wachter school is reported to be in as comfortable a condition as possible for one who suffered such injuries as she did in the accident.

## LEGION HOLDS MEET

The Lloyd Spetz post of the American Legion will hold a meeting in Legion hall tonight. After the business meeting social entertainment is planned. Election returns will also be received at the hall.

## CHURCH SOCIAL

The Christian Endeavor society of the Presbyterian church will hold an ice cream social on the lawn of the Presbyterian church this afternoon and evening. Everyone is cordially invited to attend.

## CARD PARTY AND DANCE

The First Division of St. Mary's Sewing Circle will give a card party and dance at St. Mary's auditorium tomorrow afternoon at 2:30 o'clock. The public is cordially invited to attend.

W. Sorenson of Van Hook, Mrs. Rosina Raser of Beulah, Bernice Nelson of Sterling and Alfred Elston of Berg have entered the Bismarck hospital for treatment. John Anderson of Gary, Canada and Paul Lonne of Medina have been discharged from the hospital.

## STATE OWNED HOTEL OPENED IN SO. DAKOTA

The Lodge Is Situated at An Elevation of 4,300 Feet

## 9 HOLE GOLF COURSE

Pierre, S. D., June 26.—South Dakota's state owned hotel, The Lodge, nestled among the pine clad, granite slopes of Custer State park, in the heart of the Black Hills, is again open to the tourist, according to a formal announcement by the state fish and game department.

Nearly a year ago the original Lodge was opened to the public but after a short successful season was consumed by fire of unknown origin. Work was immediately started on the present structure which is nearly in exact duplicate of the first.

The Lodge is situated at an elevation of 4,300 feet on the main highway between Hermosa and Custer, 32 miles out of Rapid City. It combines rusticity with modern hotel conveniences and is the nucleus about which will be built a moderate priced vacation settlement. From the low hill at the rear of the building can be seen many of the principle peaks in the Black Hills, including Sheep Mountain to the southwest and Harney Peak to the northwest. Past the front of the Lodge, and within a stone's throw from the porch, runs a mountain creek containing many of the smaller varieties of trout. A short walk in nearly any direction takes the tourist to the larger creeks, the home of the Rock Leven Rainbow and other "big" fellows.

South and little east of The Lodge, the department has laid out a nine hole golf course, pronounced by golf enthusiasts who have seen it, as one of the sportiest courses in the state. Work on this will not be completed until about July 1, and it will require another year to put it in first class shape. Next season the department anticipates the construction of tennis courts and croquet grounds west of the hotel.

Although the building will comfortably accommodate 40 to 50 people, experience last year taught the department that it would not care for the hundreds of tourists who visit the park each season and who will want to stop there. For this reason the department urges tourists to come prepared with a camping outfit. A public camp ground is being prepared near the Lodge with running water, toilets and cans for garbage disposal and being installed for the convenience of the campers. This will be ready for use about the first of next month.

The state will operate the hotel on a cost basis with just sufficient profit to pay expenses of the attendants through the winter. Rooms will range in price from \$2.00 to \$3.00 a night for two persons and meals will be served for 50¢ and 75¢ cents. Running hot and cold water is piped to all rooms and sleeping porches. A garage is operated in connection with the hotel.

## Renewal Notes Are Given For Packing Company

Renewal notes are coming into the Equity Co-operative Packing company at Fargo at the rate of about \$30,000 to \$50,000 per week just now according to C. W. Reichert, president. The company has fifteen men at work in Minnesota and North Dakota, to reach part of the 17,000 stockholders scattered for the most part through Minnesota, the Dakotas and Montana.

These collectors are handing renewal notes by which the stockholders who have not paid for their stock renew the notes they gave and are relieved of any indebtedness for interest.

Beside the renewal notes coming in about \$2,000 is cash each week, according to Mr. Reichert.

With the money received it is hoped to pay up all indebtedness during the next four or five months and possibly to accumulate enough cash with which to start the plant January 1. If the crops in the state fulfill their promise, Mr. Reichert expects that this will be possible. If not, he believes that the financial standing of the company will be so far improved that it will be possible to borrow the additional sum necessary for reopening.

Approximately 4,750,000 tons of wheat feeds are produced annually by flour mills in the United States.

## Heads Federation

Mrs. Thomas G. Winter, of Minneapolis, president of the General Federation of Women's Clubs, was elected without opposition. She was a woman member of the advisory committee to the Washington arms conference.

## MARRIAGE A LA MODE

Most men dislike bobbed hair. It's inherent, from pole to pole.

For example, in Greenland a girl has little to say about choosing her husband. Her father picks a husband for her.

But the girl can spoil the match, if she objects to her father's choice, by cutting off their hair. Among the Eskimos, for a woman to wear hair short is a disgrace.

Short hair; no husband.

## TRUTH AND HEALTH

Two free lectures will be given by Rev. A. C. Grier, Pastor of The Church of The Truth, Spokane, Wash., in the Business and Professional Women's Club Room, Friday evening, June 30th, at 8:00 p. m. Subject, "The Power of Thought," and Saturday afternoon at 2:30 p. m. Subject, "What All The World Is Seeking." Hearing forms an important part of the work in The Church of The Truth. All are welcome to attend the lectures.

In the early days of English railway travel the car seats bore numbers corresponding to the numbers on the tickets.

## LOCAL PEOPLE TO CONVENTION

Rev. Strutz to Preside at Fargo Convention

Rev. C. F. Strutz, pastor of the Evangelical church and daughter, Miss Alice and Theodore Martell left today for Fargo where they will attend the North Dakota conference of the Evangelical Association, Young Peoples Alliance and Sunday School convention from June 28 to July 2. P. H. Schneider and Miss Esther Bremer expect to arrive at the conference before the end of the week.

Rev. C. F. Strutz is president of the officers of the North Dakota conference. Branch Y. P. A. Rev. F. Braw of Wyndere, vice president, Miss Luella Rule of Cavalier, recording secretary, Miss Rose Teichman of Fargo, corresponding secretary, Miss Esther Bremer of Bismarck, missionary secretary, Rev. A. W. Heidinger of Fargo, bible study secretary, Carl C. Pitsch of Fargo, treasurer, Mrs. R. L. Kaestner of Jamestown, junior superintendent, Theo. Martell of Bismarck, secretary of Christian citizenship, R. H. R. Strutz of Jamestown, president of the Bismarck district.

On Thursday during Young People's Alliance day Rev. C. F. Strutz will make the annual address on the subject of "Giants and Grasshoppers," while Miss Esther Bremer of this city will discuss "Our Response to the Call of Missions," and Theo.

Martell also of Bismarck will discuss Christian Citizenship and the Y. P. A. Rev. C. L. Sore of Houston will deliver an address on "The Contagion of Personality" and also an Evangelistic sermon. Various other addresses and discussions appear on the program.

The entire program for the five days of the convention is packed with discussions, talks, reports, music and various kinds of recreation, which is intended to fill the delegates with enthusiasm which they will carry home to their own people.

## DETROIT GETS TROUNCING BY WHITE SOX

Cleveland With Six Run Rally in the Eighth, Wins from St. Louis

## GIANTS WON ANOTHER

No Less than Seven Home Runs Were Smashed Out in Yesterday's Games

(By the Associated Press)

Chicago, June 28.—Connie Mack's Athletics are out of last place today and Boston is holding down the cellar berth as a result of the "iron man" performance of their star twirler Eddie Rempel in chalking up two victories over the Red Sox. Rempel earned a 4-2 decision in the first half of a double header and came back in the seventh inning of the second game to stem a Boston rally, while his mates pounded Ferguson and won 6 to 4.

The rejuvenated White Sox tossed their hats into the American league pennant ring by trouncing Detroit 9 to 5 and ascending to a tie for third place with the Tigers.

The Yankees were idle but St. Louis lost part of its margin at the top when Cleveland snatched victory from the Browns with a six run rally in the eighth that sent Wright and Vangilder to the showers. The score was 9 to 7.

Dutch Ruether registered his thirteenth victory of the season when Brooklyn disposed of Boston 7 to 3. The Giants took a six inning affair from the Phillies 7 to 1, rain cancelling a double header, while the St. Louis Cardinals tied Cincinnati in the ninth and won in the twelfth, 9 to 8.

## Walker Made 13th Homer

Pittsburgh checked its downward plunge by taking a twin-bill from Chicago.

"Bubbles" Hargrave and the veteran Jake Daubert, starred with the willow for the Reds, each polling home runs while they poked out four hits each.

Tillie Walker, the slugging outfielder of the Athletics smashed out his 13th homer of the season against the Red Sox. Dugan and Burns also of the Athletics drove out homers.

Ray Schalk of the White Sox had a field day at bat against the Tigers. He drove out four hits, including a double, triple and a home run.

Catcher Wirth cracked out a homer in the 2nd game against the Pirates yesterday with the bases loaded.

## Billy Evans Says

Supporters of the University of Washington take serious objection to the way Coach Wallis of California has explained the defeat of his crew by Washington.

In the dual regatta, held on Lake Washington, California, was defeated by some fifteen lengths. This easy victory of Washington over California, caused the eastern crew coaches to sit up and take notice. It causes Washington's varsity crew to gain instant respect.

In the midst of much praise that was being bestowed on the Washington crew, Coach Wallis of California took all the joy out of life for that institution, by giving a version of the race that took much of the punch out of the victory.

The California sculler made the statement that the victory of Washington by fifteen lengths was not as decisive as the margin of victory would make it seem. The claim was made that the California crew carried a fleet load of one man the greater part of the way. At it was claimed that the California crew stopped rowing under orders from Coach Wallis before the finish of the race.

Washington supporters take decided issue with all these claims. From the victory supporters comes the word that Howell at No. 5 rowed dead load. They say that Howell did not collapse until the Washington crew had crossed the finish line.

The force of Howell's out sticking in the water threw him out of his shell then, say the Washingtonians. Seeing the condition of Howell, the California coxswain threw up his hand and the men stopped rowing.

Howell was picked up by a Washington launch and taken to shore. The doctors who examined Howell found no injury, and pronounced a complete exhaustion, the Washington boaters say.

In order to prove that Washington's margin of victory was as decisive as Washington supporters contend that the clerical of course, the referee and judges are a unit in every Washington has crossed the line before California stopped rowing.

There you have the Washington side of the much discussed race, which California was so decisive in beating.

Coch Wallis of California, while admitting Washington had a good crew, said the defeat of his varsity was due to the collapse of one of his rowers. He said that he ordered his crew to stop rowing when a half mile from the finish.

Take our word. No draw decision goes.

## Ready! Get Set! Go!

Obis in the 100-yard dash get off to a flying start at Stamford Bridge, England. Miss M. Lines, England's champion runner, is nearest the camera.

## MINNESOTA GOLF BUG DOES WELL

Johnston, Second Low Medalist, May Meet "Chick" Evans in Finals

(By the Associated Press)

Kansas City, Mo., June 28.—Match play for the western amateur golf championship began today at the Hillcrest Country Club with "Chick" Evans of Chicago, six times title holder, and present champion, sending out the first drive on the 217 yard par 3 number one hole and Eddie Heid of St. Louis shooting against him.

Today's play began after two days of qualifying shooting which produced golf which undoubtedly was the greatest ever seen in the preliminary rounds of a western amateur tournament and which according to veterans of the links, has never been equalled in any tournament in recent years. The quality of the field is shown by the fact that it took a score of 156 for thirty-six holes to assure qualifications, seven men shooting off a tie at 157 for the thirty-second place in the championship flight.

Cards which broke part were common and Evans, in becoming medalist with a mark of 143, shot a 67, six under par, tying the professional record made when putts were conceded, breaking the amateur record for 19 holes and breaking the professional and amateur marks for the first nine which he made in 23 against par 37.

Much of the public interest in the match has centered on Evans and Harrison Johnston, St. Paul, the young Minnesota state champion and considerable delight was expressed when it was found that Johnston, by being second low medalist, with 144, drew a position in the lower half with "Chick" in the upper half. Thus the two cannot meet unless they reach the finals and any possibility of one eliminating the other early in the play is done away with.

## SPORT BRIEFS

(By the Associated Press)

Chicago, June 28.—William Tilden II, world's tennis champion won his first match in the singles of the Illinois tournament, defeating Jack Harris of Chicago.

Rock Island, Ill., June 28.—Charlie White shaded Johnny Dundee in ten rounds.

Los Angeles, June 28.—Jesse Willard began training in the hope for a return match with Jack Dempsey.

## HALLIDAY DEFEATED RICHARDSON

Halliday, N. D. June 28.—A game of ball played at this place Sunday

between Halliday and Richardson resulted in a victory for Halliday by a score of 9 to 2. The Halliday team found Johnny O'Day, the Richardson twirler, in the first inning and pounded him throughout the entire nine innings, the Richardson team also hit the Halliday pitcher quite often, but the support given him was fine. A large crowd witnessed the game.

## WRESTLERS IN GREAT MATCH

John Freberg, champion Swedish wrestler, and Jack Sampson of Wahpeton gave a remarkable exhibition at the Arcade Bowery last night. The crowd was disappointing, receipts being but \$33. Because neither Sampson nor Freberg made experts to Bismarck they declined to go through with a two hour match and agreed to wrestle 30 minutes or to a fall. They put up a wonderful exhibition for a half hour, neither winning a fall.

## Pittsburgh Successful Regardless of Star Catcher

Case of Schmidt and Pirates Is One of Few on Record

BY BILLY EVANS

A high-class veteran backstop is generally regarded as absolutely essential for a major league club that aspires to win a pennant.

Last year Walter Schmidt of Pittsburgh club ranked first in the National League averages covering the catchers.

Sometimes the averages do not tell the truth, but in Schmidt's case his ranking was regarded as well deserved. At the bat he hit close to .300.

This story is to be the tale of a major league club that seems to be doing very nicely without the aid of the star backstop.

Last winter Schmidt and the Pittsburgh club could not agree on salary. A star catcher is always in demand, and perhaps Schmidt figured that if he failed to agree on terms he would be traded.

When stars differ with their clubs and hold out, things often happen that way. The player is traded to some club willing to satisfy the star.

Owner Dreyfus of the Pittsburgh club and Manager Gibson took a definite stand in the Schmidt matter, they stood pat.

As a result Schmidt is still out in the cold, while the Pittsburgh club is moving along very nicely.

## Nothing to Pittsburgh

I rather thought the absence of Schmidt would seriously injure the chances of the Pirates. However, such doesn't seem to be the case. Pittsburgh goes merrily along, winning a majority of the games and always staying within striking distance of the league leading Giants.

The case of Schmidt and the Pittsburgh club is one of the few cases on record where the absence of a star catcher has not played havoc with the team's chances.

During the past month I have discussed the case of Schmidt with a number of star National League players, as well as several managers from that organization. All of them seem to hold the same opinion in the matter. The consensus of those I talked with runs about as follows:

"Schmidt is a great catcher. Any major league club could use him to advantage. Ordinarily his absence would be severely felt, the personnel of the Pittsburgh pitching staff, however, is such, that the club is getting by very nicely without Schmidt."

"If the Pittsburgh pitchers were a lot of young fellows, with a tendency to be wild and always in need of experienced coaching, Schmidt would be greatly missed."

They Have the Pitchers

"Such, however, is not the case. Take such pitchers as Babo Adams, Cooper, Hamilton and Carlson and most any good mechanical catching would satisfy them."

"These four veterans know how to pitch, have the control, and possess an inside knowledge of all the batters. In addition the recruits of last year, Morrison and Glassner, have almost graduated into the veteran class."

"Gooch, who has been doing most of the catching, is a fine receiver and thrower. He lacks experience, but anything necessary is supplied by the veteran pitchers."

All of which struck me as a pretty good explanation of why Pittsburgh wasn't missing Schmidt.

# Serving a Food Empire With Petroleum

IN maintaining its extended and thoroughly organized system of distribution, which reaches every farm in the 10 Middle Western States served, the Standard Oil Company (Indiana) is rendering a distinct service, not to the agricultural district interests alone, but to all the people.

The importance of this service may be visualized when it is known that

48% of the wheat  
65% of the oats  
53% of the corn  
41% of the hay

grown in the United States during 1921 came from this territory.

The farmers of this great area (approximating that of Great Britain and Ireland, France, Spain, Portugal, Italy, Holland, Denmark and Germany combined) use large quantities of petroleum products in producing this vast amount of food stuffs.

They have come to depend upon the regular visit of the dark green tank wagon of the Standard Oil Company (Indiana) to supply their needs.

Power-driven machinery is essential to modern farming operations, and it is the responsibility of the Standard Oil Company (Indiana) to see to it that the gasoline, kerosene, and lubricating oils and other petroleum products are in the hands of the farmer when he needs them.

To render this service requires an enormous organization of highly trained men under efficient management. It requires a tremendous capital investment; refineries; bulk service stations; tank wagons; and service stations to cope with the need of supplying an agricultural area of the size and importance of these 10 Middle Western States.

In undertaking the responsibility of supplying the needs of the farmer for petroleum products, the Standard Oil Company (Indiana) has assumed a job of magnitude and importance.

Because it knows that its organization will not break down under stress; that its facilities will enable them to meet the demands made upon it; that its personnel has a deep interest in seeing that every manufacturing and distributing schedule is maintained, the Company is able to guarantee an adequate and sustained service.

## ROAD TO HEALTH IS EASY, SAYS DR. R. OLESEN

Grand Forks, N. D., June 28.—The road to health is easy declares Dr. Robert Olesen of the United States Department of Health in a statement which he desires to send to every one in North Dakota interested in better health. Dr. Olesen is making a survey of the state preparatory to recommendation concerning the establishing a co-ordinated department of health.

"There is nothing mysterious about the prevention of sickness," declares the State Board of Health in announcing the booklet. "The road to health lies in clean homes, clean food, clean hands, clean teeth, clean milk, pure water, fresh air, and fly less communities. The cost of these health adjuncts is trifling yet they work wonders in preventing sickness. These safeguards of health are so obvious and elementary that many persons are inclined to overlook them entirely, seeking more complicated means of disease prevention."

"Do not go through life with handicaps that may easily be removed," requests the board. "Do not shorten your life or reduce your earning power or your capacity for enjoying life by neglecting your bodily condition."

It is the aim of the state board of health to aid the residents of the state to keep well, or as they express it, to keep "in fighting trim," and the

board, from its headquarters in Grand Forks stands ready to send to people who apply, literature that will give the rules for preventing disease.

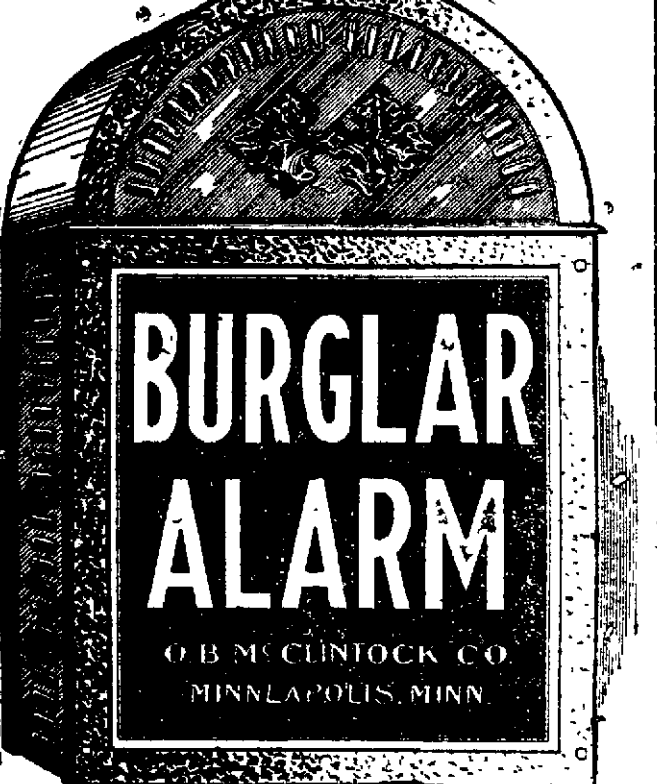

The fur seal industry of the Pribilof Islands yields the United States government from \$1,000,000 to \$2,000,000 annually.

body is recovered. Fargo, June 28.—The body of Floyd Larson, 8, of Argusville, who was drowned when he fell from a raft into the Sheyenne river last night, was recovered.

The wastage of natural gas in the United States is about half the production.
